INTRODUCTION

Teaching is a fundamental purpose of the University of Florida and the dissemination of new knowledge in our classrooms, studios, and clinics enables our students and trainees to fully explore their intellectual boundaries. Assessment and evaluation of our courses are designed to enhance instruction and maximize learning to meet the mission of the university. This report contains the results gathered through the new GatorEvals system. Students were invited to share their feedback on the teaching and course material. We invite every faculty member to examine the analysis in the report and utilize the resources provided in the report. Thank you for your continued great work!

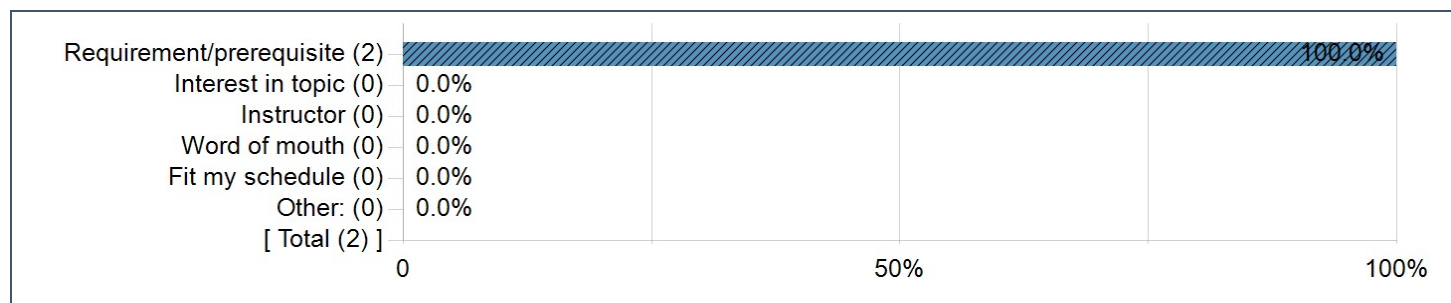

Chris Hass, Ph.D.
Associate Provost for Academic and Faculty Affairs

I really enjoyed learning under Lacey. She was very connected to the students and eager to provide any help she could to better our understanding. Even if we didn't always answer questions correctly she always managed to turn it in a way that fit the lesson and then asked a differently worded question to help us get to the point that she wanted. I also really liked how when we were talking about different crops or food groups she would occasionally bring in real models to class for us to try, it helped to keep us engaged and was honestly really fun!!

What additional constructive feedback can you offer the instructor that might help improve the course?

Comments

Overall I greatly enjoyed the class, the only piece of feedback I would have to give is to maybe offer simpler instruction for the ArcGIS map project. There were multiple times while I was doing that project that I got lost because there were steps that I couldn't understand how you got to. Maybe if you posted a video outlining all the steps or maybe a tutorial I greatly feel it would help the student to better understand the whole process.

What constructive suggestion(s) do you have for improving the course materials, organization, and assignments?

Comments

I didn't feel that the course materials or assignments needed improving besides the ArcGIS assignment.

Please identify the topics and/or skills you learned in the course that you believe will have the highest application for future courses or professional growth.
